

- 0:00

Hi, I'm Anna Webster in today. I'm going to show you how to

- 00:04

make yogurt orange dip. This is my favorite dip. To start off. I'm

- 00:07

going to start off by cutting cutting an Apple to go with my

- 00:11

dip. So first you're going to cut it vertically down.

- 00:16

Then you're gonna lay it on on its flat sides.

- 00:20

And I think of it is kind of cutting it like a star.

- 00:27

And you're going to do this to both halves so then.

- 00:33

So you can cut down the middle.

- 00:36

Then on the right side.

- 00:39

The left side.

- 00:41

And in this knife you won't need again.

- 00:45

So next I take out the cores of the Apple. So I use a paring

- 00:50

knife and you just go from front to back on each of them.

- 00:57

Like this?

- 01:01

And I have a fruit I have. I have a plate already there so

- 01:05

I can just go ahead and set the apples on it.

- 01:16

You're gonna want to cut the core out of all of the apples.

- 01:25

So now, once you're done with that.

- 01:26

I go ahead and I throw away all of the core.

- 01:34

And now to the best part of the whole video.

- 01:41

The orange dip.

- 01:44

So to start off, you're going to want to have 1/4 Cup of yogurt.

- 01:49

You're gonna put this in a bowl.

- 01:53

Next, you're going to have to have two tablespoons orange

- 01:58

juice. And this just gives it the dip consistency.

- 02:06

Next, the very last thing is the cinnamon. You just need a fourth

- 02:11

teaspoon of cinnamon. This just gives it a little extra flavor.

- 02:17

Then you're going to want to mix it all up. In this. It is really

- 02:22

good for parties, family reunions, pretty much any little

- 02:25

thing that you go to. It's very simple and it is very very very

- 02:30

easy to make.

- 02:32

So we can start up.

- 02:35

And this is probably one of my

- 02:37

favorite dips. And now you're all done, and this is what it

- 02:43

should look like.

- 02:48

Enjoy.
