4-H Youth Development Initiatives
2016-2020
County Plan of Work

The Kentucky 4-H Youth Development Program is committed to growing outstanding youth with marketable skills to succeed in today’s global society. 4-H empowers youth to reach their full potential, working and learning in partnership with caring adults. *Head, Heart, Hands, and Health* are the four Hs in 4-H which represent the four values members work on through fun and engaging programs.

- Head - Managing, Thinking
- Heart - Relating, Caring
- Hands - Giving, Working
- Health - Being, Living

Volunteers, 4-H agents and program assistants provide educational opportunities through 4-H clubs, special interest programs, enrichment programs, camps and afterschool programs for Kentucky youth. The county level program is the key in making a difference in the lives of local youth. Through input from the local 4-H Advisory Councils, programs are identified for the future.

What’s New and What’s on the Horizon

As counties prepare for the next Four Year Plan of Work, 4-H Extension Specialists in the College of Agriculture, Food and Environment have gathered information related to initiatives and trends in 4-H Youth Development. They have already started identifying some program efforts for the future based on past, present, and future situations.

Below is a summary of programs that are being developed and planned for the future in Kentucky 4-H. **Additional programming efforts** will be added based on the need identification that occurs when agents meet with advisory councils and develop the County Plan of Work.

Developing leadership and volunteer skills for community and civic engagement.

- 4-H Teen Mentors – a program/curricula guide designed to support older 4-H members in mentoring younger 4-H members will be adopted, adapted or created based on existing resources.
- A committee of agents interested in working on diversity and inclusiveness has been selected. This committee will identify resources available for teaching diversity/inclusivity to youth and provide training to agents on implementing these curricula (during Program Year 2015-2016)
- Citizenship Curriculum will be revised-efforts begin in fall 2015.
- New emphasis on Youth Adult Partnerships.

Engaging in discovery, exploration, and understanding in science, engineering and technology.
