Friends of Kentucky 4-H:

For the State Officer Team, January was a return to our new normal. November and December were a time to rest, relax, and enjoy the holidays. The new year rang in and brought with it plenty of winter we had missed in December. 4-H Agents were ready to start the year off right, which translated to plenty of work for us to do!

4-H Summit planning began in full force, state officers met with the contact agents to address making 4-H Summit the best experience possible for middle school youth in the virtual platform. I am confident that 4-H Summit will reach plenty of new young people and remain the inspiring and educational event it has always been! Additionally, the team met with several counties and districts for regular meetings and officer trainings, giving advice on public speaking, mock interviews, and parliamentary procedure.

We also began planning for our virtual district leadership workshop series, which will hopefully begin in March with District 5. We are excited to reach youth across the state in middle and high school. We hope the event will inspire youth to get more involved in their district programming. We hope this type of event will support district and state-level programming.

As we round the corner for the final six months of our term as your Kentucky 4-H Officer Team, we hope to keep up the pace and continue to provide quality youth development opportunities across the commonwealth. If you would like us to lead a workshop, training, or just spend time with your club, feel free to fill out the officer request form [here!](#) We would be glad to visit, especially virtually in this weather!

Best,

Landry Woodrum
 Kentucky 4-H President
