Club Description:

4-H special interest clubs are a fun way to bring kids & teens who want to learn a special skill or hobby together with adults who know how to do the skills/hobby. A SPIN Club can be started with one adult leader and five youth. The adult provides expertise and guidance. Youth learn the new skills/hobby and run their own club. SPINS usually meet 6 to 12 times during a few months. Members of the SPIN Club elect officers. Each club meeting starts with a short business meeting, led by club officers. Then everybody gets their hands and minds into learning the special interest that brought them together--how to ride, bake, sew, etc.
