Spring of 2016 Senior Forestry Event
National 4-H Forestry Invitational Event – July 31st – August 4th, 2016 West Virginia
http://www.4hforestryinvitational.org/

March 8th, 2016 at Bernheim Arboretum and Research Forest in Clermont, KY has been tentatively identified as a date and location for 4-H Senior Forestry testing to determine the team that will represent Kentucky at the National 4-H Forestry event being held in West Virginia July 31, - August 4, 2016.

If you would like to have high school members (ages 14-18) participate in the state event(s), please email me back before February 26th, 2016. Based on the counties responding we may have to schedule a different date and or location for testing.

The team will be chosen from the “testing” location not from County or District boundaries. The team with the highest combined score will be designated “state team”. If members from this team are unable to attend the national event, we will use the list of top scores from across the state to maintain the total number of team members required.

Again, let us know if you have an interest in attending the 4-H Forestry testing.
