

Directions: Find the “**core program area/project**” you are interested in implementing. The “**contact**” is listed for those specialists and associates on the state level who can support you in implementing and evaluating programming. Ensure the use of “**approved curriculum**,” 4-H Curriculum Resources Can Be Found at [Kentucky 4-H Curriculum Page – Shop 4-H](#). Additional curriculum resources may be used if produced or promoted through UK Cooperative Extension Service Faculty or Specialists. It is the responsibility of the youth development professional to ensure aspects of high-quality program quality indicators for positive youth development are evident. **Evaluation Tool and Reporting Indicators in the Kentucky Extension Reporting System (KERS)** For all evaluations, KERS indicators are listed on the evaluation tool and are denoted in chart below. Using curriculum/program outcomes choose which indicators are needed in the evaluation tool created to administered to participants. All questions (whether there is a KERS indicator or not can be utilized in success stories as measured behavior change). The only volunteer indicators in KERS are found in Concentration: Work and Life Skill Development and align to the top nine questions in all of the volunteer evaluations. All evaluations can be found in the Kentucky 4-H Programming Team: Policy, Operation, and Program Management > PRG_Program_Management> PRG_Evaluation> NEW Evaluation Resources (As of July 1, 2025). Additionally all that are tracked in KERS can be found here: <https://extension.ca.uky.edu/evaluation-resources>
